TMS Establishes Maintenance Services Division

General mechanical contractor adds specialty division for industrial plant maintenance.

KANSAS CITY, Kansas – (June 15, 2007) – TMS Incorporated has announced that it has formed a maintenance services division to provide maintenance technicians and a complete range of electrical and mechanical maintenance services to companies with industrial plants and manufacturing facilities.

TMS Maintenance Services will provide supplemental maintenance personnel to industrial customers in the Kansas City and surrounding area on an as needed basis. TMS technicians will be able to troubleshoot and repair electrical and mechanical systems of all kinds in a wide variety of environments.

Company President Joseph Cashen said the formation of TMS Maintenance Services was a natural step in the growth and evolution of the company.

“Formalizing TMS Maintenance Services positions the maintenance services area for rapid growth and gives us the opportunity to serve new customers,” said Cashen. “We have always provided support services to the majority of our long-time customers,” he said. As our business has grown, more and more of our customers have called on us to supplement their labor forces for routine equipment and plant maintenance projects in addition to help companies cover routine personnel shortages.”

###

Editor’s note: TMS is a family-owned general mechanical contractor. They design, develop, install and maintain total mechanical solutions for a wide variety of customers operating industrial and manufacturing facilities. Total mechanical solutions include process piping, line installation, plant maintenance services, equipment installation, design engineering, custom steel fabrication and HVAC service and installation.

TMS Names Manager for Maintenance Services Division

KANSAS CITY, Kansas – (June 15, 2007) – TMS Incorporated has announced that it has named Dennis W. Hubbel maintenance services manager for its newly-formed TMS Maintenance Services Division.

As Maintenance Services Manager, Hubbel will have the overall sales, marketing and management responsibility for the Division. A Navy veteran, Hubbel has wide-ranging experience in the design, installation and repair of industrial plant production equipment. Most recently, he was Director of Engineering and Commercialization at Williams Foods Inc. of Lenexa, Kansas.

Under Hubbel's direction, TMS Maintenance Services will provide maintenance technicians and equipment maintenance services to industrial customers in the Kansas City and surrounding area on an as needed basis. TMS technicians will be able to troubleshoot and repair electrical and mechanical systems of all kinds in a wide variety of environments.

“We're pleased to welcome Dennis to TMS Maintenance Services,” said Joe Cashen, President of TMS, Inc., General Mechanical Contractor. “He brings a great deal of experience and enthusiasm to the position and to the company. The maintenance services segment of our business continues to grow and Dennis is the right person to guide its growth.”
